

The **EPIC Fan Coil Unit** with the unique single fan deck

The EPIC Fan Coil Unit with specific fan power as low as 0.15 w/l/s has many benefits over other terminal air conditioning systems:

- Very low carbon emissions – comparable to chilled beams
- Unique fan deck arrangement with large 250 watts horizontally mounted ECM driven fan
- Constant or variable air volume
- Slow speed fan giving low noise levels – NR20 can be achieved
- ECM technology means no commissioning on site
