A.O. Smith high-efficiency solar systems: SGE & SGS

Thanks to the single intelligent control system incorporated in our SGE & SGS water heaters, we can guarantee the **highest level of solar efficiency, up to 40% extra** when compared with a standard solar system. This is achieved by saving as much solar energy as possible in the systems stored water and using the fossil fuel burner only when absolutely necessary.

For full information on these intelligent solar systems please see the "ReNEWables" page of our web site, alternatively call our technical department who are available to answer any questions on sustainable hot water applications. **0870-AOSMITH (2676484) or www.aosmith.co.uk**. We are always happy to assist you in finding the perfect hotwater solution!
