

Armaflex®

PROTECT YOUR INVESTMENT

Professional Insulation that Prevents Condensation and Energy Losses

Armaflex insulation provides the most efficient and reliable solution to condensation control and energy loss from day one and continually provides optimum performance for the lifetime of the system.

Armaflex is a flexible, closed cell, elastomeric, nitrile rubber, insulation. It is a highly efficient method of insulating; both hot and cold water services, chilled water lines, heating systems, air conditioning duct work and refrigerated pipe work. Armaflex is the sustainable solution for; frost protection, energy conservation and condensation control.

- » Built in vapour barrier prevents condensation
- » Reduce energy losses up to 87%
- » Easy and speedy installation with low maintenance, resulting in time and cost savings
