

Eaton-Williams just got bigger. Colman Moducel are now in good company

The Eden Project, Cornwall

For Air Distribution and Air Handling specify Colman Moducel

Eaton-Williams acquired Colman Moducel with a view to expanding and strengthening their position in the air handling/distribution market. Colman Moducel are leaders in the design, manufacture and supply of high quality grilles, diffusers and louvres, together with fan coil units and a very large range of air handling units.

Their expertise comes from providing air distribution and air handling solutions for a wide variety of projects, for over 50 years. For the best in air conditioning, ventilation and air distribution, specify Eaton-Williams and Colman Moducel, the changing climates specialists.

So always specify Eaton-Williams and you'll be in good company.
