## Why choose anyone else?

Specifying the right heating solution is a complex business these days. Making the wrong decision will impact on your organisation and the environment – so who do you choose? Well the decision is easy – Dimplex! No other manufacturer has such a complete package.....

- UK's widest range with over 60 models across ground, air and water source
- National approved installer network
- The complete solution from initial consultation through to final commissioning
- Installer training
- Access to grants of 35% for ground source heat pumps under Low Carbon Buildings Programme, Phase 2
- Nearly 30 years manufacturing experience in Europe

So whether you're a specifier, installer, or client organisation, Dimplex can deliver the complete heat pump solution. Visit our website or call 01489 773336 (quoting ref HP/HVI) for an information pack.

 Dimplex®

Comfort. By design
